

## ALABAMA MAY PASS LOCAL OPTION LAW

O'Neal's Victory In Primaries Declared Setback for Prohibition.

### BLACK EYE GIVEN COMER'S POLICIES

Opposition of Railroads Regarded As Powerful Influence In Contest.

MONTGOMERY, Ala., June 3.—Opponents of prohibition in Alabama are laying claim to a victory in the outcome of the recent Democratic primary in this State.

As the result of this primary it is probable that the prohibition laws of the State will be modified. Emmet A. O'Neal, leader of the fight against the recent proposed amendment to put prohibition in the Alabama constitution, defeated H. S. D. Mallory, a supporter of the amendment, by a majority of between 20,000 and 25,000. Not only was O'Neal, who is a lifelong opponent of prohibition, nominated for governor, but a declaration for local option was made at the Democratic State convention. The foes of prohibition say that the next Legislature, which meets in January, undoubtedly will pass a local option measure.

#### Two Notable Results.

The recent convention was not less noteworthy in its effect upon the prohibition movement than for the strength shown in opposition to the reform movements of Governor Comer against the domination of the railroads and corporations.

As the elements that in the past have lined up with Comer view it, the reactionary forces, it is asserted by the friends of Governor Comer that the railroads took a large part in the fight to control the primary and the State convention. They wanted to down Comer, and in order to do this helped along the cause of O'Neal, who is reactionary. It appears the railroads were more than willing to have an opponent of prohibition put in the governorship provided they could give a setback to the forces which have been backing up Comer.

#### "Dry" Party Hopeful.

While an anti-prohibition candidate was nominated for governor, it is not true that prohibition sentiment in the State is by any means dead. This is indicated by the fact that Hefflin, Taylor, and all the members of the House from Alabama, but Clayton and Richardson, supported prohibition in the campaign. They were all renominated with the exception of Craig and he was not a candidate.

Prohibitionists point to this as evidence that the spirit of prohibition is not by any means smothered. The opponents of prohibition are making the most of the outcome of the primary and the convention, declaring that it is clear that Alabama, after sixteen months of prohibition, which it has twice voted against at the polls, is in favor of the restoration of the local option policy.

### ALL RECORDS BROKEN IN SHOE RETAILING

Washington Firm Asserts It Sold More Pairs In Two Days Than Any Other Firm.

"All known records broken in shoe retailing" is the way Ney & Co., shoe merchants located at Eighth street and Pennsylvania avenue southeast, announce the direct results of an advertisement in "The Times" of May 6, telling of a special two days' sale of shoes. Ney & Co. assert that during the two days they sold more pairs of shoes than have ever been sold in Washington in the same length of time by any one firm. The advertisement was sent to the advertising department of "The Times" today with the following note from E. Shipley, of Ney & Co.: "Read over the clipping. It actually happened after our ad in 'The Times' of May 6. We have secured another lot of the same shoes and will announce in this evening's edition of 'The Times' (June 3) a similar sale for Saturday, June 4. Yours, 'E. SHIPLEY, Ney & Co.' The shoe merchants assert in the language of the modern business slogan, 'it pays to advertise.'"

## Pot and Pan Philosophy

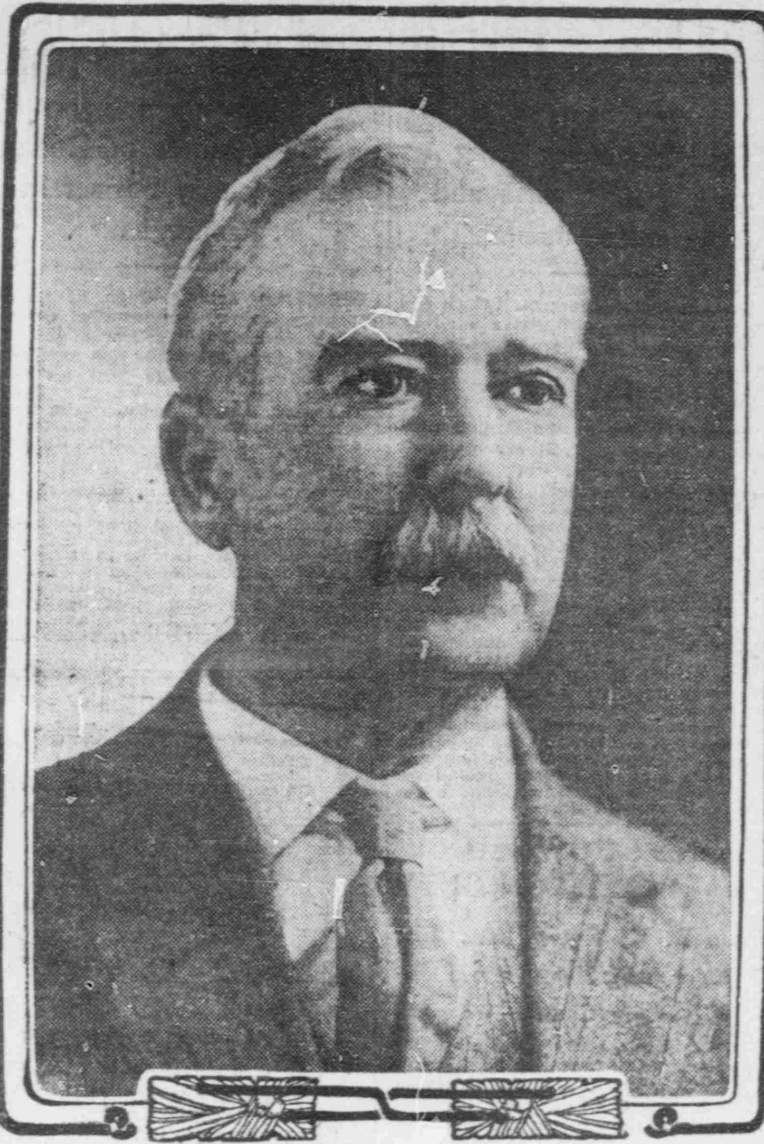

All the soap and muscle in the world won't clean your pots and pans as they should be cleaned.

Ordinary washing of cooking utensils passes over whole hidden nests of little wigglers—commonly called germs.

Gold Dust is an antiseptic washing powder that not only removes the visible dirt and grease, but goes deep after every trace of germ life—sterilizes pots, pans, pails and kettles—leaving them clean, wholesome and safe.

Just shake a little Gold Dust in your dish-water and it will make your pots spick and span as when new and your tins shine like silver.

### WINNER IN ALABAMA PRIMARIES

EMMET A. O'NEAL,

Whose Victory Is Declared by Anti-Prohibitionists to Be Setback for "Dry" Movement in State.

#### MORE PAY FOR CAR MEN.

CINCINNATI, June 3.—An increase in wages ranging from 1 to 3 cents an hour has been granted to the employees of the Cincinnati Traction Company, operating the street car lines in this city. More than 21,000 men will benefit. The additional outlay to the company yearly will be more than \$100,000.

#### DIES AT AGE OF 110.

WESTON, Vt., June 3.—Joseph Wood, the oldest inhabitant of New England, died at the age of 110. He was born in Paris, France, and had been blind ten years and without teeth thirty years. His paternal grandfather lived to be 106 years old, and his father died at the age of ninety-nine. His mother died in her 104th year.

#### GETS PASSENGER EN ROUTE.

TAMPA, Fla., June 3.—En route from New York to Middleport on a Jersey Central passenger train, Mrs. William J. Edwards, became the mother of a son as the train reached this town.

## CHIEF HURT AT FIRE IS RESTING EASY

Keliher May Have Internal Hurts, But Condition Not Serious.

Battalion Chief James Keliher, who, with three firemen, was injured during a fire at the hay and grain warehouse of H. P. Pillsbury, 54-58 H street northeast, was resting comfortably today at his home, 723 North Capitol street, and while the doctors do not consider his condition serious, he may have suffered internal hurts.

Chief Keliher was struck in the abdomen with a stream of water and knocked to the floor of the smoke-filled building. Before he had a chance to get up and fight his way out he was struck by falling boards from the ceiling. The other firemen injured were Privates Ernest Hollidge, of No. 3 engine company; C. W. Price, of Truck 4, and E. C. Burch, of No. 5 engine. They were working on a ladder inside the building, which slipped and threw them to the floor.

As the ladder fell the roof partly caved in, and the men were caught beneath the falling debris. They were treated at the Casualty Hospital, where it was said none had been seriously hurt.

Probably caused by spontaneous combustion, the fire started shortly after 3 o'clock yesterday in a pile of hay in the front of the building, which is a two-story structure nearly through to 1 street.

Stored in the building was about 500 bales of straw and hay and more than 100 barrels of flour. The stuff made a smoldering blaze that gave the firemen a stubborn fight for several hours.

Mr. Pillsbury said today that he estimated the damage at \$30,000, which is partly covered by insurance.
